# A BILL

To establish in the Smithsonian Institution a comprehensive American women's history museum, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-  
2 tives of the United States of America in Congress assembled,*

**3 SECTION 1. SHORT TITLE.**

4       This Act may be cited as the "Smithsonian American  
5 Women's History Museum Act".

**6 SEC. 2. FINDINGS.**

7       Congress finds the following:

8           (1) Since its founding, the United States has  
9 greatly benefitted from the contributions of women.

1                         (2) Historical accounts, monuments, memorials,  
2                         and museums disproportionately represent men's  
3                         achievements and contributions and often neglect  
4                         those of women. For example—

5                             (A) a study of 18 American history text-  
6                         books concluded that 10 percent of the material  
7                         documented contributions of women;

8                             (B) 9 statues out of 91 in the United  
9                         States Capitol's National Statuary Hall Collection  
10                         depict women; and

11                             (C) only 1 of the 44 monuments operated  
12                         by the National Park Service specifically honors  
13                         the achievements of women after the 2016 designation  
14                         of the Belmont-Paul Women's Equality  
15                         National Monument.

16                             (3) There exists no national museum in the  
17                         United States that is devoted to the documentation  
18                         of women's contributions throughout the Nation's  
19                         history.

20                             (4) On December 19, 2014, Congress created a  
21                         Congressional Commission to study the potential for  
22                         an American museum of women's history. The bipartisan  
23                         Commission unanimously concluded that  
24                         the United States needs and deserves a physical national  
25                         museum dedicated to showcasing the historical

1       experiences and impact of women in the United  
2       States.

3                 (5) Establishing a comprehensive women's his-  
4       tory museum representing a diverse range of view-  
5       points, experience, and backgrounds is necessary to  
6       more accurately depict the history of the United  
7       States and would add value to the Smithsonian In-  
8       stitution.

9       **SEC. 3. ESTABLISHMENT OF MUSEUM.**

10               (a) ESTABLISHMENT.—There is established within  
11      the Smithsonian Institution a comprehensive American  
12      women's history museum, to be named by the Board of  
13      Regents in consultation with the council established under  
14      section 4.

15               (b) PURPOSE.—The purpose of the museum estab-  
16      lished under this section shall be to provide for—

17                         (1) the collection, study, and establishment of  
18      programs relating to women's contributions to var-  
19      ious fields and throughout different periods of his-  
20      tory that have influenced the direction of the United  
21      States;

22                         (2) collaboration with other Smithsonian Insti-  
23      tution museums and facilities, outside museums, and  
24      educational institutions; and

(3) the creation of exhibitions and programs that recognize diverse perspectives on women's history and contributions.

#### **4 SEC. 4. COUNCIL.**

5       (a) ESTABLISHMENT.—There is established within

16 including policies on programming, education,

8                             gifts, bequests, and devises of personal property
